With this marvelous self-playing vio-lin piano—you can have the finest kind of music for your customers at any hour of the day or night-and as long as you or they want it. You can have rag time or fast dance music, classics, in fact, anything. And music so surpassingly good that it not only attracts customers but it holds them and makes them spend their money.

VIOLANO-VIRTUOSO Self-Playing-Violin-Plane

Reports that it has increased their receipts 25 per cent. Other progressive cafe, restaurant and hotel men, etc., testify that their instruments average from \$15 to \$25 a week. Instead of continually paying out good hard cash to musicians you

TAXED TO DEATH

People of Chicago Taxed to the Limit to Provide Places for Reformers.

Giving women salaries of \$5,000 a year to preside over fad departments; paying women superintendents \$3,000 WOMEN ENDORSE HOYNE a year to assist them; paying female stenographers \$150 per month while capable men and heads of families are tramping the streets looking for work, is part of the net result of the work of "reforms" in the City Council for the past five years. The other net result and the one that hurts the most, is the increase of the number of employes and the increase of the money coming from the people and spent on salaries for city employes, from twenty-four millions to over thirty-five

Chicago gives to its people the poer-est water service of any city in the world for the money they pay for it. With an exhaustless body of fresh water at her door Chicago is constant-ly talking about installing water meters in every flat and in every home to stop "waste." This is in the face of the fact that the enormous surplus in the water fund is constantly being appropriated to meet other expens of the city government instead of being used to extend and build up the water system. Water meters in every flat in Chicago would bring on a per-tilence in this big city in a short time. Every man who talks of water meters or water waste in the homes

of Chicago should be charged as a public enemy.

The people cannot have too much

To limit its use means postilence

New York goes 168 miles for fresh water and the great aqueduct which carries it to her people cost over \$500,000,000. It is one of the marvels of modern times and ranks alongside of the Panama Canal as one of the

wanders of the world.

Liverpool, England, is supplied with fresh water by an aqueduct which brings a supply from Wales and yet there is no talk of "waste" over there. Other European cities go even farther for their supply of water.

But Chicago, with an abundance at hand, is always howling about "waste."

An enormous sum is diverted from the water fund every year to supply the wants of other city departments as you can learn from the recommendations of the finance committee to the city council in the printed

council reports.

If the water fund was properly used, a pumping station could be built at the lake end of every section line in

If this was done you would hear no more about "water waste" and the necessity for meters in every house.

DUNNE'S GREAT RUN

Friends of the Governor Point to the Great Evidence of Popularity in 1912.

Some of the enemies of Governor Dunne are circulating false reports to the effect that President Wilson "would like to have a stronger man than Dunne" on the ticket with him in Illinois this year.

We advise people who are told this yarn to look up the figures for 1912. They show who the strong man is and Governor Dunne's good administration has strengthened him with the people. here are the official figures for the 1912 election.

Wilson's vote in Illinois..... 405,048 Dunne's vote for Governor.... 443,120 Wilson's plurality in the state. 18,570 Dunne's plurality in the state. 124,651 Enough said.

Unspeakable Insolence of Office Holding Gang in Chicago Arouses the Public. To Contractors

of the office holders in the City Hall and County Building calls attention to the fact that an Office Holding Aristocracy is rapidly growing into permahonorable exceptions-some men who feel that they are in office to serve number is increasing-who imagine thereafter.

The work for which said tenders are invited under Contract No. 7 includes the construction of about 12,000 lineal feet of intercepting sewer, in part of modified horseshoe and in part of box shape in section, 16 ft. internal horizontal diameter, in open cut, from the controlling works of the Calumet-Sag channel, thence northeasterly to the Blue Island and Riverdale Road, thence easterly to Wentworth avenue, northeasterly along the Indian boundary line to or near 125th Street, and easterly to the proposed Calumet sewage pumping station, located near 125th Street and Indiana avenue.

The entire work is located in the City of Chicago and Township of Calu-

ception of impressiveness-a backstairs notion of 'big folks' behavior. An upstart betrays himself by the "Insolence is the snarl of the insignificant-big head' evidence of a on different types of construction.
